Palm Beach Landings Contacts

Mark Oetzel	Manager	239-334-2004
Ian Smith	Maintenance	757-593-6061
Bonnie Greenoe	Board Member	704-756-4601

These contacts have emergency keys to all areas that may need to be accessed during a storm.

If you have special needs and will require assistance, please let them know **BEFORE** a storm arrives.

Preparing Your Unit

- Remove all items from your lanai.
- If you do not have shutters, use hurricane protection film to protect from flying debris and glass and keep the wind out. If no

protection, place furniture in front of your lanai doors to stop flying glass. Duct tape is not recommended.

- Have supplies ready in your closets or bathrooms. If the storm is a Cat 4 or above, take a mattress

to a bathroom and cover yourself with it.

- Place towels or absorbent cloths around the bottom of your lanai door and on top of windowsills to collect water. If wind blows directly at your door, it may buckle and allow water to get in.
- Fill bathtub with water for washing or flushing toilets.
- If you are evacuating or your electricity goes out, turn off all circuit breakers to stop damage from power surge when it comes back on.
- If you are evacuating, turn off all water to your unit and lock doors.

Cars

- Be sure your car is full of gas as soon as the hurricane warning is issued.
- If a surge is predicted take your car to the city garage.

Boats

- Boat owners may be held liable for damages to the dock caused by their boats left at the dock during a storm.
- Please remove your boat from the dock even if a tropical storm does not develop into a hurricane.
- If a hurricane develops,
Boat with no trailer: take to a marina or a safe harbor up river.
Boats on trailers: tie your boat to the trailer at a boat parking space. If a boat space is not available park close to the south wall.

Motorcycles

Motorcycles should be moved to vacant parking spaces under the buildings.

Get permission from the owner of the parking space.

Frequently Asked Questions

- **During a hurricane, are there special Rules & Regulations?**
NO. They remain the same.
- **Can I run my generator?**
NO. Personal generators are not permitted by fire code. They are a fire hazard and the noise is deafening.
- **Can I store my patio furniture or screens in the stairwells or the hallways?**
NO. When there is no power the stairs are our only way in and out of the building. In the unlikely event of a fire, we do not want any obstacle in the stairwells or hallways. It is also against the fire code.
- **What can I do to alleviate the foul odor from the garbage?**
Because garbage pickup will probably be delayed, double bag all garbage in plastic bags.

What can I do to help?

1. Check on your neighbors.
2. Be prepared to help others.
3. Alert the manager or board members of any rule violations for our safety and well-being.

Entry and Exit Gates will be left open.
